Global Citizens Programme:

Our world is facing huge challenges and our Global Citizens Programme provides our students with the opportunity to consider how we can act as global citizens to create a fairer and more sustainable world.

Students will explore approaches to globalisation and citizenship, looking at the opportunities and challenges a global community creates. Students will consider and debate the inequalities of power and wealth, healthcare and technology; identify areas of peace and conflict; the challenge of global responses and responsibilities and the tensions that arise.

Students will have the chance to develop their language, debating and teamwork skills through researching and discussing key topics. This environment for learning is fun, flexible and pro-active and at the end of the course, provides students with the opportunity to give a short presentation to their peer group.

Language focus

We ascertain students' language level to ensure they are placed in the most appropriate class accordingly. Our syllabus contains more detailed information.

PARENT TESTIMONIALS

"I would like to say that this summer experience was really a great experience for Xavier, and I believe he will never forget it. It was his first experience travelling abroad without his parents. His expectations were completely fulfilled and when he returned he was really a happy boy not only with the improvement in his English but also with the amazing experience he lived and shared with everyone, he felt as comfortable as at home. I would recommend this to my friends and most of all. I sincerely hope Xavier can repeat the experience the following summer. "

"Thanks to you all, Sean: Jules, teachers, monitors, friends. You were all important and I am very thankful for all your help and support. Please come and visit us in Portugal, we would like to welcome you in our home the same way you have welcomed Xavier amongst your family."

Leonor Guedes Vaz - Parent, Portugal

"Inspire became very quickly the preferred option for our daughter and for us because the team was very supportive and highly professional from our initial contacts. We strongly recommend Inspire to parents and children not only because this organization delivers high quality English learning programmes but also because it takes a holistic approach and provides its students with a highly enriching experience both inside and outside the classroom. After 2 weeks, Olivia was delighted with her improved English, gained new wonderful friends and plenty of inspiring memories – many thanks Inspire! We have no doubt we will send our children to Inspire Summer next year."
