

YANGTZE RIVER CRUISE

The Yangtze is the longest river in Asia, the third-longest in the world and the longest in the world to flow entirely within one country. It rises at Jari Hill in the Tanggula Mountains (Tibetan Plateau) and flows 6,300 km (3,900 mi) in a generally easterly direction to the East China Sea. It is the sixth-largest river by discharge volume in the world. Its drainage basin comprises one-fifth of the land area of China, and is home to nearly one-third of the country's population.

The best way to explore China's culture and beauty of Yangtze is to sail Century Signature cruises, **ChongQing to YiChang 4 days 3 nights downstream cruise** or **YiChang to ChongQing 5 days 4 nights upstream cruise**.

Itinerary summary
